Mr. Roger Vanderstelt
Village of Fruitport
P.O. Box 143
Fruitport, Michigan 49415

Dear Permittee:

SUBJECT: National Pollutant Discharge Elimination System (NPDES)
Municipal Separate Storm Sewer System (MS4)
Notification to Reapply for Permit Coverage

The Village of Fruitport and the Department of Environmental Quality (DEQ) entered into Administrative Consent Order No. ACO-000142 to continue the authorization to discharge storm water through their MS4 to surface waters of the state, pursuant to Part 31, Water Resources Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. In order to retain the authorization to discharge, the Village of Fruitport shall submit a complete Application to the DEQ, Water Resources Division, Permits Section, no later than **April 1, 2015**.

To fulfill the application requirements, you need to complete a State of Michigan NPDES MS4 Permit Application Form. The Application may be downloaded from the internet at www.michigan.gov/deqstormwater. Under the "Information" heading, click on **Municipal Program / MS4 Compliance Assistance**. The Application Form is available by clicking on **MS4 Permit Application**. If you do not have access to the internet, please contact the Permits Section at 517-284-5568, and an Application Form will be sent to you. You must complete all the items on the form that are applicable to your discharge. An incomplete Application does not fulfill the application requirements.

Please be advised our records indicate that the following Total Maximum Daily Load(s) includes a pollutant load allocation assigned to the discharge from your MS4: Little Black Creek (Biota) and Black Creek (Biota).

The DEQ will be hosting two workshops to provide information on completing the application. The workshops are scheduled for December 8, 2014, in Troy and December 9, 2014, in Grand Rapids. The workshop details and registration information are available on the internet at www.michigan.gov/deqworkshops.

If you have any questions regarding this letter, please contact Amanda St.Amour at 616-356-0215.

Sincerely,

Christine Alexander, Chief
Lakes Erie and Huron Permits Unit
Permits Section, Water Resources Division
