**Municipal Facility
Stormwater Structural Control Inventory
Tracking Sheet**

Facility Information:	
Community Name:	Cascade Charter Township
Facility Name:	Cascade Charter Township Library
Facility Address:	2870 Jacksmith Ave
Receiving Water/ Outfall ID:	CST16DP1
Facility Type:	Libraries
Secondary Facility Type (Optional) :	
Stormwater Structural Control Inventory:	
Quantity:	Type:
	Catch basins
	Constructed wetlands
1	Detention basins
	Infiltration basins and trenches
	Oil/water separators
	Porous pavement
	Pump Stations
	Rain gardens
	Secondary containment
	Underground storage vaults or tanks
	Vegetated swales
	Other structural storm water controls (See Notes)
Completed on:	13-Jan-15
Facility Map Location:	REGIS

Notes: small detention basin that discharge to 28th St storm sewer. It catches the water from the building and the grade of the property. The water is not coming to that detention pond from offsite. CST16DP1

Instructions: Complete all gray areas on the form. If your facility can be identified as more than one type in the drop down menu, use the optional secondary field, if you need 3 or more types, add them to the notes. Provide the number of each type of stormwater structural control at the facility that discharges stormwater to waters of the state.

**Municipal Facility
Stormwater Structural Control Inventory
Tracking Sheet**

Facility Information:	
Community Name:	Cascade Charter Township
Facility Name:	Cascade Township Station 1
Facility Address:	2865 Thornhills
Receiving Water/ Outfall ID:	CST16DP2 and CST16DP3
Facility Type:	Fire Stations
Secondary Facility Type (Optional) :	
Stormwater Structural Control Inventory:	
Quantity:	Type:
2	Catch basins
	Constructed wetlands
	Detention basins
	Infiltration basins and trenches
	Oil/water separators
	Porous pavement
	Pump Stations
	Rain gardens
	Secondary containment
	Underground storage vaults or tanks
	Vegetated swales
	Other structural storm water controls (See Notes)
Completed on:	13-Jan-15
Facility Map Location:	REGIS

Notes: two catch basins in the Township hall parking lot that connect to the storm sewer system in Thornhills Ave. CST16DP2 and CST16DP3

Instructions: Complete all gray areas on the form. If your facility can be identified as more than one type in the drop down menu, use the optional secondary field, if you need 3 or more types, add them to the notes. Provide the number of each type of stormwater structural control at the facility that discharges stormwater to waters of the state.

**Municipal Facility
Stormwater Structural Control Inventory
Tracking Sheet**

Facility Information:	
Community Name:	Cascade Charter Township
Facility Name:	Cascade Charter Township Station 2
Facility Address:	2990 Buttrick Ave
Receiving Water/ Outfall ID:	CST15DP1
Facility Type:	Fire Stations
Secondary Facility Type (Optional) :	
Stormwater Structural Control Inventory:	
Quantity:	Type:
	Catch basins
	Constructed wetlands
1	Detention basins
