Completed on:	
Facility Map Location:	Facility managers office

Notes: Previously noted 4 catch basins and found 3 more in yard

Instructions: Complete all gray areas on the form. If your facility can be identified as more than one type in the drop down menu, use the optional secondary field, if you need 3 or more types, add them to the notes. Provide the number of each type of stormwater structural control at the facility that discharges stormwater to waters of the state.
